Programming Fundamentals – Spring 2013
(BS-SE-F12 Morning & Afternoon)
Lab # 9

Instructions:

- Indent your code properly.
- Use meaningful variable and function names. Follow the naming conventions.
- Use meaningful prompt lines/labels for all input/output that is done by your programs.

Task # 1

Write a C++ program for solving **Programming Challenge # 2** (Chapter 7) on Page 443 of your textbook.

Task # 2

Write a C++ program for solving **Programming Challenge # 7** (Chapter 7) on Page 444 of your textbook.

Task # 3

Write a C++ program for solving **Programming Challenge # 10** (Chapter 7) on Page 445 of your textbook.

Task # 4

Write a C++ program for solving **Programming Challenge # 11** (Chapter 7) on Page 445-446 of your textbook.

Task # 5

Write a C++ program for solving **Programming Challenge # 15** (Chapter 7) on Page 447 of your textbook.
